

Every Loyal American

Prays that the present peace negotiations may terminate in Permanent Peace.

President Wilson has issued the ultimatum of the United States. Nothing less than Unconditional Surrender will be accepted. If our enemies are ready for those terms now, Peace will come. If not, then the Fight Must go on.

Any citizen who will let this Peace Talk slacken his speed in the Liberty Loan Drive, or cause him to neglect his duty to his government, is to say the least, Unmindful of his duty to his Country as a True, Loyal American Citizen.

Even if Peace should be declared now, the Loan must be met to the last dollar, and another and possibly still another must be met before the boys come back.

What manner of Man are you, who can sit back and let the other fellow buy the bonds, when the flower of young American Manhood is trudging through mud and dust to reach the blazing Hell of Action?

Our boys 'Over There' are soldiers, hardened to the rigors of war. They don't want comforts and luxuries! They don't complain of their lot! They live in rat infested billets and trenches, brave the greatest physical dangers and Death Itself to uphold this nation's ideals, Your Ideals.

They ask only for vital necessities—for enough food to nourish them, for enough clothes to weather the elements, for enough guns and ammunition to crush the enemy.

These they MUST HAVE and SHALL HAVE.

You May Have Bought, but Keep on Buying. Let's Put Old Van Buren County Over the Top.

Remember that the brave boys at the front have fought our battles, and they keep right on fighting. Encourage them with your dollars, and have a part in carrying the Stars and Stripes through the streets of Berlin.
